

USCG 41' Rescue Boat (Cutis Bay) is in very good shape. Vessel is currently in service. The motors were serviced recently & operate w/no issue. This vessel is well cared for & shows very little to no signs of wear. All electronics have been upgraded (2 Garmin VHF, 12" touch screen GPS/Chartplotter depth finder & AIS send & receive). This is one of the cleanest 41's to hit the market. The vessel serviced the Hobucken, NC waters before becoming a towing vessel. Vessel is equipped w/Cummins 903's, and w/6 person life raft, surveillance cameras w/Night Vision. Too much to list.
